G RILLES

Wenig offers the highest quality products, all manufactured in our modern 50,000 square foot factory. Wenig works in various materials including stainless steel, aluminum, brass, and steel. A wide variety of finishes are available including paint, powder coat paint, anodizing of aluminum or plating. We fabricate from on-site measurements or from dimensions or drawings. Submittal drawings are available on request. We guarantee your satisfaction. Whatever your needs, standard or unique, Wenig is the source from start to finish.

CUSTOM ENCLOSURE COMPONENTS

Wenig offers a complete line of custom enclosure components. Note the design feature that allows the stool tops and front panels to be removed at the vertical joints in the stationary mullions - a valuable advantage for accessibility to radiator or fan coil units as well as interchangeability of front panels.

- A** Rear stool
- B** Wall seating angle
- C** Slots for stool & panel
- D** Mullion
- E** Base
- F** Removable panel
- G** Grille
